Thanks Art for the forty meter QSO good, strong, signal down in Georgia, I've been practiseing CW mode

over fifty years now and enjoy using old homebrew straight key I built back in 1977. Pictured on front of card. If I keep trying, I might get it right one day! Hi! Usually 5 to 15 WPM is all I strive for, can copy 20 to 25 WPM, just can't write that fast and my old head just doesn't remember that good anymore. Still fun to Practise. Age 69 YR and counting.

Other info: Register, Ga. is about 50 miles from Savannah, Ga. Retired and enjoying it too. Well tnx agn and was my pleasure QSO Best of 73. -Al-
